DETAILED ACTION

Response to Amendment

1. In response to the amendment filed 06/16/2004, all necessary changes to the claims have been entered.

Response to Arguments

2. Applicant's arguments filed 06/16/2004 with respect to claims 1-3 and 5-9 have been fully considered but they are not persuasive. Applicant's core argument is that Haber fails to teach the backward-moving mechanism. The examiner respectfully disagrees. Haber teaches in col. 3, lines 7-19 a ratchet drive mechanism that inherently includes the back-ward moving mechanism.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Haber (US 5,298,023 of record). For detailed explanation please see prior office action page 2.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 3737

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2, 3, and 6-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haber (US 5,298,023 of record) in view of Cornacchia et al. (US 5,472,403 of record). For detailed explanation please see prior office action pages 3-5.

Allowable Subject Matter

7. Claims 10-25 are allowed.

8. The following is an examiner's statement of reasons for allowance: none of the prior art alone or in combination teaches or suggests the specific electromagnetic brake mechanism.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3737

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
